FAMOUS SWEDISH SCIENTIST DEAD.

Stockholm, Oct. 3. The death has taken pace o Professor Svante Arrhenius, the Swedish scientist.—Reuter.

Svante Arrhenius, the Swedish savant, was born at Wijk near Upsala in February, 1859. After graduating at the University of Upsala, he was, in 1884, appointed lecturer on physical chemistry there. A travelling scholarship from the Swedish Academy of Sciences enabled him to continue his studies. Nobel Institute. His first work for which he received his degree "On the Conductivity of Electrolytes" (1884) sought to show that the chemical properties of electrolytes could be deduced from their degree of conductivity. By 1887 he had carried his researches further and arrived at the theory of electrolytic dissociation according to which salts, bases and acids in solution tend to become ions. He then flames, the influence of beams of mena in the atmosphere.

Origin of the Universe.

After inquiring into the effects of toxins and anti-toxins, he turned to the question of the origin and constitution of the universe. His theory excited great interest. Shoes

The K idea of foot comfort is a shoe that clasps the heel and instep snugly but leaves the tees to move naturally as you walk. If your shoes do not give you this comfort try a plus-fitting K, which has extra but unseen toe room. For instance, a plue 4 fitting K has normal heel and ankle, with extra and concealed room for the toes, while a plus 3 fitting has a normal forepart with a reduced heel to fit a slender ankle.

Remember, too, the better your shoes fit you the longer they will last.

The zoological handicaps of life in the East, and the means we have of dealing with them, was the subject of a lecture by Dr. Gilbert Brooke at the month! meeting last week at Raffles Museum, of the Singapore Natura History, Society, under the chairmanship of the president, the Rev. Dexter Allen.

Dealing with his subject from the human rather than from the pedantic point of view, Dr. Brooke observed that the strangeness of almost all the intimate features of life with which the newcomer to the tropics is confronted comes, the Shanghai Municipal Council, not so much from the broad scenic | celebrated his 52nd birthday last outlines-for these one has been week, and the event was made the prepared by pictures of Eastern occasion by a large number of scenes-but really and funda- friends and admirers of expressmentally from the realms of low- ing not only their appreciation of

TOLL OF TYPHOON.

23 KILLED, 13 MISSING.

Investigation stabulary in Nueva Ecija, Philippine Islands, of the typhoon damage on September 17, shows that 23 persons were killed, 13 are missing and many were injured. This places the known death toll at 30 in all provinces affected.

The report shows that ten of the 23 persons killed were from Carrangalan, and the rest were from Pantabangan. Other towns which suffered were Cabanatuan, Rizal and Munoz. Damage to crops and buildings of the Munoz agricultural school was estimated at P.2,400.

More than 100 head of cattle and carabaos, valued at approximately P.6,000 perished in Carranglan and Pantabangan.

A demand was made yesterday for \$1,000,000. but this was met by the Chamber of Commerce by a suggestion that, as they were quite unable to raise this \$8000 per day by an issue of their own paper currency which would be current in Wuhu only and with which the military could purchase necessities locally.

The Compromise.

This counter proposal was not accepted by the military and at an emergency meeting a compromise was yesterday reached whereby the Chamber of Commerce should pay \$500,000. CHINA'S NEW WAR.

much about the new situation in of the surprising outbreak of fighting between the forces of General Yen Hsi-shan, the military chief Marshal Chang Tso-lin. General Yen occupies a unique position in Chinese politics. Almost ever so vacillated-first being on one. all through the sweeping changes In the fighting between North and South he has been "on the fence" though rumour has often placed him differently. And now, suddenly, the world wakes up to find "China's champion fence-rider" as. he has been called, in the lists against Marshal Chang Tso-lin and his associated Generals. It necessary to go over the whole China situation once again and get this new alignment in mind. Along the Yangtsze there are three General Yang Sen away in the upper reaches. Nanking and Hanreported) and they find that on their respective northern flanks there are the enemies Sun Chuanas it seems, there is a rumour that Marshal Sun is prepared to link is connected with that idea. The interesting to observe. railway that runs from Hankow to Peking passes near to General Yen's territory and a few weeks ago he spread his forces southwards and now actually sits astride that railway, preventing Peking from using HONGKONG'S GOOD RESULT. it for military purposes against Hankow. But the whole position is obscure and in a state of flux, ther events to clarify it.

If the military position is obscure, the political situation is even more so. The coming and going of leaders, the making and breaking of alignments, the multiplicity of parties and the bewildering changes without apparent reason makes one despair of keeping intelligent track of the march of events. One thing is more than certain, namely, that China has yet to wait for the coming of well-intentioned and orderly direction. How long this sense- Quarry Bay less struggle between persons and

factions guided only by their selfish ends is to continue is merely a matter of speculation, but the end does not seem anywhere in sight. More's the pity. The people of North China have seen enough of the sorrows attendant on warfare, especially the cruelties and wastefulness of a winter campaign, to know that an outbreak of fighting between the powerful armies of Shansi and Fengtien can only spell suffering and want and, often enough, too, ruthless ill-treatment of the countryside folk. Hankow, Nanking, Peking, Taiyuan, Ichang, Canton—all these capitals are at the moment in the hands of separate militaristic factions, among whom it would be extremely difficult to find one genuine spark of that real nationalism of which China stands so greatly in need.

ON A MISSION.

FILIPINO LEADERS PASS THROUGH.

TO SEE MR. COOLIDGE.

Among the passengers arriving in Hongkong yesterday aboard the s.s. President Madison, were the Hon. Sergio Osmena and the Hon. Manuel Quezon, well-known Filipino leaders, who left Manila on October 1 on their way to the United States. They depart tonight on the Madison for the north. Much interest attaches the trip of these two Philippine's representatives, as they are bound on a mission of great importance to their fellow countrymen, no less than a conference at Washington with President Coolidge, at which independence of the Philippines will be the chief discussion.

Prior' to his departure from

Senate President Manuel Quezon told newspapermen that l was going to remain in power several years more. He said, however, that he would be willing to accept the resident commissionership at Washington offered to him although he did not believe there was any move afoot to confer on him that honour.

TIENTSIN TENNIS.

NG SZE-KWONG AND RUMJAHN RENEW ACQUAINTANCE.

OLYMPIC TEAM'S SUCCESS.

Tientsin has been treated to some very fine tennis exhibitions as the result of the visit of the winning Chinese Far Eastern Olympic team, for although the Tientsin opponents were beaten in all games, they ran the Chinese sufficiently close to raise plenty of enthusiasm.

Ng Sze-kwong and P. W. Lum were extended to the full by the Rumjahn brothers, Omar and A. L., both late of Hongkong, the final score being: 7-5, 3-6, 7-5, 9-7. Ng Sze-kwong had to bear the brunt of the work against the redoubtable Tientsin pair, for during the first two sets Lum was right off his normal game, and his top-spin forehand drive down the side-line, for which he is noted, found the net nine times out of ten. The outstanding player was Omar Rumjahn, who was a

model of consistency. Play fluctuated considerably and the Chinese had to play exception, ally well to end the match at the

end of the fourth set. C. L. Shih, another prominent Tientsin player, was defeated by Paul Kong, 6-3, 6-3.
Shih got well off the mark, but

the visitor quickly settled down, and he left Shih standing with delightful passing shots.

Second Day. On the following day, Ng Szekwong partnered by Kong defeated C. W. L. Way and C. T. Liang | Bristol R. 6-1, 6-4. Ng's somewhat puzzling | Plymouth service was never taken by the Tientsin pair with any assurance, and the Chinese pair won with | Crewc comparative ease. Way and Liang made their big effort in the second set, but some powerful hitting by Kong enabled the Olympiad players to end the match early. Prior to this, Lum had defeated Omar Rumjahn 8-6, 6-3, 6-1, in one of the finest games seen on the Tientsin Lawn Tennis Association courts. Rumjahn fought his opponent for every point, but was

gradually worn down by the more powerful physique of his opponent, and in the last set was well beaten. The Olympic champion never accepted a ball as being beyond his reach, and some of his returns were marvellous. Rumjahn's most prominent stroke was his backand, which if anything was on the front and write your name superior to that of Lum. POLICE DANCE.

MORE FUNDS FOR THE

Police dances in the past have always been so efficiently organised that the mere intimation of a function in aid of the Ministering Children's League ensured a large attendance at the City Hall last night when there was not only a big, but a representative, gathering present.

The function, which was of an impromptu nature was organised by Mrs. E. D. C. Wolfe, wife of the Captain Superintendent of Police, and other willing lady and gentlemen supporters, and was under the auspices of the Police Branch of the Women's Guild and Ministering Children's League.

The stairway leading to the upper floors of the City Hall and the landing were gaily bedecked with flags. Dancing was in St.

University.-P. L. Tan, M. B. Recreio, S. C. A. A. defeated H. K. U. Kermani, K. P. Gan, G. E. Yeoh, A. Al Rumjahn and P. C. Lim. The referees were Messrs. A. C.

Howell and W. J. Walker. The Y.M.C.A. played with ten men and showed better combination than the visitors who played wildly at times. The majority of the play was in the University half, but they minde several spasmodic" rushes, Yeoh scoring on two occasions: The Y.M.C.A. goals were scored by Slipper, the Rev. Murray and R. Murray. May played an especially good game, having good deal of work to do on the depleted wing. The Rev. Murray missd a penalty corner.

Our Portrait is of Mr. WALTER E. WHITE, of 41, Bollo-lane, Chiawlok, London, England, who writes :-

"Some three years ago I had a swelling in the knee cap. One night I knocked my knee which caused a little ulcer which in time, no matter what l "did, developed across the whole knee. I had one large gaping wound, and with all the care and attention that wound was open for 15 months. Being an all-round athlete, holder of many cups and prizes, I began to give up all hope of ever taking my place again among the athletes. One day one of my fellow workmen inquired how my leg was, and told me it was 'Clarke's Blood Mixture I wanted. That day I bought a bottle, and when I had finished it I was not only surprised myself, but all my workmates could see improvement: I could bend my knee a little and that gave me encouragement, so I persevered with it and am glad to say seven bottles completely cured me. I am now as well as ever, and am still holding my own as nn'athlete."

CONSPIRACY CHARGE AGAINST DEPARTMENT MANAGER.

Almost unique in the history of local Court cases is that which was brought before Mr. Lindsell at the Central Court yesterday afternoon, when F. Chan, formerly a responsible employee of the Wing On Company, Universal " Providers, Voeux Road Central, was charged, with that on divers dates between June 1st and July 18th in the present year, he did conspire with H. K. Yeung, another employee, and with others unknown, injure the Wing On Company their trade, by inducing the Rober Dollar Steamship Company, customers of the Wing On pany, to cease being such customers; by falsely representing to the Roberty Dollar Company that the Wing On Company wished to " increase the prices of certain commodities then being supplied; by response to the request from Mr. further falsely representing that a certain price list dated July 12th being, one of these being a revised containing such increases was supplied by the Wing On Company,-all of which being calculated to induce the Robert Dollar pany; that F. Chan being Company to withdraw their custom from the Wing On Company and to transfer it to a new Company organized by the defendant and

Contract Entered Into.

In his opening, Mr. Jenkin said that the defendant was engaged up. by the Wing On Company in 1920, for the purpose of serving them in the Ship Chandlery Department of their store. That Department was of the price list of July 12th, he On Company secured a contract the Wing On Company further with the Pacific Mail: Steamship custom as from the end of July Company for supplying their ships This and previous letters includwith provisions and other necesting the revised list, thad passed sities. > The date material to the case was the middle of the present year. It was essential that Counsel should place before the Court the state of the Staff of the Chandlery Department of the Wing On Company on that date, because part of the charge had to do with the act of the defendant in inducing other members of this Staff to join him in a rival business which he had set up. Of these men, H. K Yeung was the Departmental Manager, the defendant F. Chan was his assistant; and Chan Sau, (a brother of the defendant) one of the staff, and also several others whom Counsel named, and who were occupying other positions ranging from clerk to messenger coolie.

As to the contract mentioned above. Counsel stated that its value in the Wing On Company in the first year was to the tune of \$17,000. In 1926 that sum rose to \$19,000. To the end of July of the present year, which might be regarded as a bumper year, or it was to have been a bumper year until the defendant willed it otherwise, the amount had further increased to \$130,000, or roughly, at an average of \$20,000 per mensum. From a study of these figures, Mr. Jenkin said that it was obvious what the benefit would be to the defendant to get the contract for himself by such means as he had worked out.

Contract Time Unlimited,

The contract with the Dollar Line started in 1924, under which the Dollar Line, as disclosed in copies of letters which Counsel produced, the Wing On Company was assured of continued custom from the Dollar Company so long as the quality and price was what was expected, combined with good service. That service was con-tinued with the Dollar Line up to the end of July, of this year.

Then at this date; certain letters. were addressed to the Dollar Line. In one, H. K. Yeung, the Manager of the Ship Chandlery Department, notified the Dollar Line of their wish to increase the prices, and asked the Dollar Line's permission to do this, as was proper in view of the understanding between the two Companies in the matter of these goods.

Regarding this, Counsel said: I shall prove that it was wholly untrue that the General Manager of the Wing On Company, Mr.

Phillip Gockehin, had any Intention us. He died,-I understand he at this date or any material date, died a natural death. That left of increasing the 1926 prices. It us with only Mr. Chan to give us will be my case that the letter was a reason for what had happened written as a result of a conspiracy | Counsel went on to state that botween Young and the defendant after the receipt of the letter men-Worship to know that at this date He had opened up a place Mr. Wilson had been in charge of Gilman Street, taking over most

Faked Price List.

Wilson, two price lists came into list which purported to emanate from the Wing On Company, and the other from F. Chan and Comother than the defendant who had now come into being as a separate entity from the Wing On Company. Both lists would bear some amination with considerable terest. A Serious Loss.

On August 3rd the President Madison arrived, and for the first time Mr. Phillip Gockchin of the Wing On Company was suddenly made aware of the fact that the requisition for supplies which always followed the arrival of a Dollar boat had not come, and he looked into the matter and made a surprising discovery. He also looked into No. 6, Gilman Street and discovered a place newly opened up for business and already loccupied by two or more of the staff who had left with the defendant. It must have also been a deep love for the Wing On goods, said Counsel, but the coincidence was also remarked on of several baskets which had formerly been in the Wing On Chandlery Department being now also associated with the late fokis at the Gilman. Street shop. Another of the fokis also left suddenly a few days later and it was also discovered by Mr Phillip Gockchin that this man too, had gon'e to "join the merry party at Gilman Street," sai

Mr. Jenkin said that the Wing On Company were deprived their contract and their business in so far as the Chandlery Department was concerned, dwindled down from \$20,000 per mensum to only \$1,000. The Rev. H. A. Wittenbach. M. A., who led the opposition: dealt with the more morbid aspects of a man's outlook on life after having loved and lost. He told the story of a man who visited a lunatic asylum and there saw a man moaning and groaning, and looking very miserable. On asking what was the cause of the man's illness he was told that the man had been disappointed in

Love and Crime.

When a man was disappointed in love there was very little for him to do. He either committed suicide, or killed the girl, his rival, or both. After such a disappointment a man often turned criminal. He contended that because, inter alia, of the morbid tendencies set up it was better never to have loved, than to have loved and lost. The proposer was seconded by Mr. E. R. Price, and the opposition

by Mr. P. Sands. In the ensuing discussion, a member raised some amusement by commenting on a contention by Mr. Sands that he who travelled alone travelled faster. He likened a man and woman riding through life together on a tandem cycle, saying how much easier going it was than were they riding separate-

Gay Music Always

For tiffin, tea, dinner and dancing-to make your voyage even more pleasant than you had hoped, that's why all President Liners of the Dollar Steamship and American Mail Lines have such excellent orchestras.

The magnificent President Liners are broad of beam and exceptionally steady. All are oil burners, swife express liners!

The public rooms are luxuriously appointed and inviting. All staterooms are outside, splendidly furnished and equipped with beds—not berths. Each room has hot and cold running water, also fans, wardrobe, thermos bottles and reading lamps. Private bath and showers in connection with many

rooms perfect the travel comfort of these giant passenger liners. The Cuisine is world famous. The deliciously prepared menus will delight you. And how the orchestra adds zest to your dining.

The decks are spacious. The Glass-enclosed Promenade always popular. Deck sports, open air swimming pool, movies, evening dances,—everything has been done to make your trip a happy one. Unexcelled anywhere—is the courteous and efficient service accorded you by the trained personnel aboard the Presidence

The great frequency of sailings and the liberal stopover privileges of the Dollar Steamship and American Mail Lines have made these giant passenger liners outstandingly popular among travelers.

BRITISH GUNBOAT ARRIVES OPPORTUNELY.

The narrow escape is recorded of the s.s. Shing On, a Hongkong-Wuchow steamer, from being pirated at the Unkortsui in her last trip from Wuchow to the Colony. The s.s. Shing On is a cargo boat, and the attack on her by the pirates is indeed something new, considering that pirates seldom aim at a cargo boat and always prefer passenger vessels. On her voyage the s.s. Shing On stopped at Samshui, and took on board some cargo, while an old Chinese lady, believed to be the mother of the owner of the s.s. Shing On, is also said to have boarded the vessel at Samshui. Probably the pirates obtained the news, and wanted to attack the steamer with the sole desire of

thought to be rich. Leaving Samshui the vessel arrived at the Unkortsui district, sels. Ordinary passengers lost ties occurred as the result of the where the river is narrow, and all their personal luggage, and in wrecking of the armoured car, but scores of pirates with bright pistols were seen running about

The steamer tried to elude the pirates by going at full speed, while the latter ran along the two banks, shouting and demanding that the steamer come to a halt, threatening that if the boat did not stop they would open fire. Later, two steam launches painted black, belonging to the pirates were seen steaming after the Shing On.

This chase lasted for a short tempt to co-ordinate the efforts of while only, as a British gunboat AT THE the community in this direction, was seen coming from the opposite and Mr. Firth was to be con- direction. CAR'S INEFFICIENT BRAKES.

A PATENT THAT WOULD NOT WORK.

Mr. A. S. Gubbay's Indian chauffeur was summoned before Major C. Willson at the "Central Police Court this morning for driving with inefficient brakes, and admitted the offence.

In explanation, Mr. A. S. Gubbay stated that this car was only a year old, and the hand-brake in question was a new patent device which had failed repeatedly, and nad "just as often been repaired, but no permanent success was

obtained. As had happened when the car was proceeding up Garden Road, the application of this patent brake alone was not sufficient, although it was advertised as an emergency brake. He had therefore written to the garage for it to be removed. During the time he had this patent brake, he had

spent \$100 on it. Sergeant Hopkins said that in test of the brake, he found that it was useless when applied alone. The car rolled down Garden: Road all the same, although its velocity was checked somewhat.

His Worship's view was that inefficient brakes should not have been used by Mr. Gubbay so long. He inflicted a fine of \$3.
